

ISI PAPERS

EVOLUTION OF ISI PAPERS UNDER AFFILIATIONS OF PUT 2012 - 2016

Scientific writing and publication marks the endpoint of research that has been performed, completed, peer reviewed and accepted, and complements teaching and training.

In this chapter we present the publications/papers written by our professors, PhD students, researchers etc. These publications can be: papers published in ISI Journals or papers presented at Conference and indexed in ISI Proceedings.

The number of papers presented in the below figures is greater than the number of papers presented in previous Research Reports. This number varies from year to year because annually it increases the number of publications indexed in the ISI Thompson Reuters database.

* The data was obtained from Thomson Reuters - Web of Science during February - April 2017
