

# PROJECTS SUPPORTED BY PRIVATE FUNDS

## PROJECTS SUPPORTED BY PRIVATE FUNDS CONTRACTED BY PUT 2017

Field	Total number of projects	Number of projects presented
Environment	41	2
Transport, telecommunications and other infrastructures	26	1
Energy	1	1
Industrial production and technology	42*	2
Health	1	-
Technological and engineering sciences	3	-
<b>Total</b>	<b>114</b>	<b>6</b>

\* *National Private Funds: 41 projects;*  
*International Private Funds: 1 project.*

## EVOLUTION OF PROJECTS SUPPORTED BY PRIVATE FUNDS CONTRACTED BY PUT 2013 - 2017

A series of inter-institutional collaborations have crucially influenced PUT's ranking classification exercise between 2013 and 2017.

Two main categories of institutional collaborations are to be noted: inter-university collaborations and collaborations with enterprises. Each of them has clearly established, mutually-shared objectives: mutual support, know-how transfer, and cooperation objectives for a common output.

PUT has always maintained a close relationship with the community, with the external environment, this relationship being its own reason to exist. Beyond the actual research and formal education, the research accomplished through technological transfer has been a constant concern for the University departments, faculties and management structures, which is reflected in the number of contracts with private companies.

This chapter presents a selection of the research contracts with third parties.
