

# Florin Ciocan

Manager Ecosistem & Innovation Nokia România

In 2001 he graduated the Faculty of Electronics and Telecommunications, within the Technical University in Timișoara.

He attended the master courses in Electronics and Telecommunications at Politehnica University Timișoara.

He has been Alcatel-Lucent employee since 2001, holding, over time, several positions: tester, team leader, development project manager.

Since 2010 he is Ecosystem Manager coordinating the relationship with the academic environment and since 2018 is Innovation Manager coordinating the activity of Nokia Romania Garage

Over the last seven years he has coordinated the partnership with the Faculty of Electronics and Telecommunications to equip the labs with telecommunications equipment and for LTE 4G courses and laboratories.

He has an active role in coordinating various social programs, by constantly supporting low income families with more children, and by supporting children from Timișoara Emergency Reception Center and Inclusive Education Center Dumitru Ciumagianu.
