

Establishment of the Advisory Committee of the Politehnica University Timișoara

Beyond the belief that a collaboration with representatives of civil society and the economic environment are essential for the development of any educational institution that prepares real specialists for the labour market, the establishment of an advisory committee of the university is stipulated both in the Law of National Education No.1/2011 and in the "Carta" of the Politehnica University Timișoara, approved in 2011.

Law of National Education No. 1/2011:

Article 214 (7) According to the "Carta" of Politehnic University Timișoara, the university can develop advisory structures made up of representatives of the economic environment and personalities from the external academic, cultural and professional environment.

"Carta" of Politehnica University Timișoara:

Article 176 (1) The University may establish, in addition to its management structures and functions, advisory bodies. One of them, called the "Advisory Committee", is established by this "Carta" and the others with the approval of the Senate.

Article 177 (1) The Advisory Committee is the advisory body of the Rector's institution, with the role of advising/guiding it in making/preparing major decisions for the university, such as those concerning: strategy for education, strategy for research, strategy for entrepreneurial activities, investment strategy, strategy for institutional development, budget ordering, etc.

Article 177 (2) The Advisory Committee is made up of distinguished personalities of academic environment, former rectors, academics, of prominent personalities from economic, cultural, professional and administrative environment designated by the Rector.

Article 177 (5) The Advisory Committee shall be organized and operate based on a regulation of organization and operation drawn up by itself, approved by the Rector.

Article 177 (6) The Advisory Committee shall present its results in the form of studies, recommendations, etc.
